

I am very much against the idea of LPFM signals being given a priority over FM translator service.

My entire family and many of my friends and associates listen regularly and some of them exclusively to K-Love FM both locally and when traveling.

K-Love is an extremely valuable station, serving our local community and others around the country.

If K-Love were to be displaced by a LPFM station, there would be a void in our community for quality Christian music and comment.

Please do not make this change!
